Great Review for SelfHypnosis CD Take Control Over Alcohol by Susan NeriFriedwald Founder of the New Behavior Institute

_This deep meditation CD is specifically directed for anyone that has a desire to stop drinking alcohol. Susan's soft, yet direct, voice takes the listener into a very deep trance during the 45 minute meditation. In this place, the listener is able to gain self confidence and take control over their excessive drinking.

Susan's method gives the listener an effective and effortless method to take back their own power rather than have it succumbed to alcohol, or other destructive substances. During the meditation she guides the listener to take care of themselves by accessing their innate abilities. Interspersed with soft music, Susan further guides the listener to let go of the desire to drink alcohol and replace it with water.

Susan, a Certified Hypnotherapist and founder of New Behavior Institute, gives an outlet for the listener to bring out their own inner strengths and take manageability over their own life. Kudos to Susan for creating a safe and effective channel to manifest goals.
